
Chancellery of the Duchy of Savoy – Reactivation and Coordination

As part of the renewed affirmation of the **sovereignty of the Duchy of Savoy**, the Chancellery serves as the central administration of the transitional government, under the authority of the Chancellor appointed by the State of Savoy. It also acts as the primary interface between the State, the international community, and Savoyards across the world.

1. Strengthened Diplomatic Role

International Negotiations

The Chancellery leads diplomatic efforts — particularly negotiations with France, international bodies, and third-party states — as part of a process of crisis resolution and the reappropriation of sovereignty by the People of Savoy.

Representation and Ambassadors

It coordinates embassies, consulates, and diplomatic envoys, including official representatives in regions such as Polynesia and India.

2. Administrative and Institutional Governance

Internal Oversight

The Chancellery oversees public administration, maintains official records (including the Constitution, treaties, and decrees), and ensures the publication of documents submitted to international institutions.

Provincial Coordination

In line with the provincial governance project, the Chancellery ensures consistency across public policies (health, education, transport) while managing State infrastructure.

3. Legal and Statutory Functions

Authentication of Legal Acts

The Chancellery validates and signs all legally binding documents, such as rulings, decrees, laws, and official decisions.

Institutional Framework

It actively contributes to the development of the future Constitution and the implementation of transitional structures.

4. Ceremonial and Protocol Duties

State Ceremonies

The Chancellery organizes official ceremonies, including diplomatic receptions, public events, State funerals, and the awarding of national honors.

Diplomatic Coordination

It ensures the proper conduct of State visits, institutional meetings, and events that promote unity across Savoy and its Provinces.

Chancellery & Transitional Governance

Operating under the **transitional government**, the Chancellery supports the **claim before the United Nations and the Vatican (J.O. 21.11.2024)** and leads the international strategy for the legal and political restoration of the sovereignty of Savoy.

It guarantees **full transparency** regarding diplomatic and financial documents published on the official website, thereby strengthening the legitimacy of its actions before both international institutions and the People of Savoy.
